PROFESSIONAL SUMMARY

Software Engineering undergraduate (3rd year) with hands-on experience in full-stack web (MERN/Next.js, Node.js) and Mobile App Development (Kotlin). Experienced in integrating AI solutions and third-party APIs to build scalable and user-focused applications through both individual and team projects. Passionate about clean code, scalable architecture, and continuous learning. Seeking a Software Engineering internship to contribute to impactful products while gaining industry experience.

EDUCATION

BSc (Hons) in Information Technology - Software Engineering

Sri Lanka Institute of Information Technology (SLIIT) | 2023 - Present

Current GPA: 2.97 / 4.0 | Expected Graduation: 2027

Relevant Coursework: Data Structures & Algorithms, Mobile App Development, Database Management, Software Architecture, Distributed Systems, Computer Networks

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Java, Kotlin, Python, SQL
- **Frontend:** React.js, Next.js, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MongoDB, MySQL
- **Mobile:** Android (Kotlin), XML, Material Design
- **Tools:** Git, GitHub, Docker, Kubernetes, Postman, Linux, Figma

PROJECTS

CeylonLeaf | Tea Estate Management System (React, Node.js, MongoDB, Express, Google Gemini AI, Leaflet) - [Tea-Plantation-Management-System](#) (github)

- **Pest & Disease Management:** Integrated Google Gemini AI for real-time pest identification with Sri Lanka-specific treatment recommendations and pricing, Leaflet maps with GPS capture and Sri Lanka coordinate boundary validation
- **Daily Plucking Records:** Automatic worker payment calculation with attendance validation and duplicate prevention for same field-date with Real-time dashboard
- **Incident Reporting:** Real-time weather integration + secure Supabase image upload accessible to all system users with incident tracking
- **Technical:** JWT + ownership-based access, MongoDB schema validation, Leaflet maps with GPS coordinate validation, sub-3s form submissions, AI responses <5s

DailyBloom | Android Wellness Application (Kotlin, Android Studio, Shared Preferences, Alarm Manager, Work Manager) - [DailyBloom](#) (github)

- Habit tracker with full CRUD operations and visual completion indicators
- Mood journal with emoji selector and historical timeline view
- Hydration reminder system using Alarm Manager/Work Manager for background notifications
- Gamified achievement system (Week Warrior, Month Master, Water Champion)
- Local data persistence using Shared Preferences (no backend required)
- Solo project end-to-end development

ACHIEVEMENTS & CERTIFICATIONS

- AI/ML Stage 1 & 2 – SLIIT (Sri Lanka Institute of Information Technology)
- Web Development & Python language Certifications - University of Moratuwa

LANGUAGES

- English - Professional working proficiency
- Sinhala - Native

AVAILABILITY

- Open for Software Engineering Internship
- Full-time availability | Remote / Hybrid / On-site (Sri Lanka)
